

Subject:	Personalised Health & Care 2020: Using Data & Technology To Transform Outcomes For Patients & Citizens - Work Streams
Prepared by: Sponsored by: Presented by:	Chris Tite, Head of IT Simon Jupp, Director of Strategy Simon Jupp, Director of Strategy
Purpose of paper	Briefing paper for information
Key points for Trust Board members <i>Briefly summarise in bullet point format the main points and key issues that the Trust Board members should focus on including conclusions and proposals</i>	<ul style="list-style-type: none"> • The National Information Board published ‘<i>Personalised Health and Care 2020</i>’ (NHS IT Strategy) in November 2014. • Details of work streams to deliver this followed in July 2015. • Key deliverables that will impact on the Trust are: <ul style="list-style-type: none"> ▸ Citizens will access digital acute health records by 2018; ▸ Health & care professionals will obtain digital information from across a “paper-free” NHS and social care system. ▸ Decision support will be integrated into workflow. • CCGs must submit ‘digital roadmaps’ for their economies by April 2016. These must include plans to move secondary care providers from paper-based to digital processes. • CCGs will be integral to the process of allocating, awarding and distributing funding.
Options and decisions required <i>Clearly identify options that are to be considered and any decisions required</i>	No decisions required.
