

Workforce Disability Equality Standard (WDES) Data 2022

Portsmouth Hospitals University NHS Trust

The WDES is a requirement for NHS organisations to publish data and action plans against measures of workforce disability equality. This enables NHS organisations to compare the work experience of disabled staff and non-disabled staff.

The data is gathered from our staff survey results and workforce data and is used to develop action plans that aim to improve the work experience of disabled staff. Each year comparisons are made to enable us to demonstrate progress against the indicators of disability equality. It also allows us to better understand the experiences of our disabled employees and supports positive change for all by creating a more inclusive environment.

Representation

8.6% of our workforce have declared a disability
17.21% of our workforce have not declared their disability status, this has reduced by **2%** in 12 months

Shortlisting

Non-disabled staff are **1.26** times more likely to be appointed from shortlisting

Capability Proceedings

Disabled staff are **1.23** times more likely to enter the formal capability process

Bullying and Harassment

26.1% of disabled staff said they experienced, harassment, bullying or abuse from patients, relatives or the public, this is **4.2%** higher than non-disabled staff

Bullying and Harassment

Disabled staff said they experienced harassment, bullying or abuse from:
 Managers: **15.3%**, this is **6.5%** higher than non-disabled staff
 Colleagues: **24.7%**, this is **9.1%** higher than non-disabled staff

Reporting

47% of disabled staff said the last time they experienced harassment, bullying or abuse at work, they or a colleague reported this, this is **1.5%** higher than non-disabled colleagues

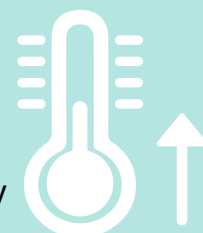

Career Progression

53.6% of disabled staff believe the Trust provides equal opportunities for career progression or promotion, this is **5.2%** lower than non-disabled staff

Feeling Unwell at Work

27.7% of disabled staff said that they felt pressure from their manager to come to work despite not feeling well enough, this is **3.9%** higher than non-disabled staff

Feeling Valued

35.1% of disabled staff said they are satisfied with the extent to which their organisation values their work, this is **9.9%** lower than non-disabled staff

Adjustments

73.9% of disabled staff said that adequate adjustments were made to enable them to carry out their work

Engagement

Staff engagement score for disabled staff is **6.5**, compared to **6.9** for non-disabled staff

Board Membership

There is no representation of disabled staff on the Board

We are committed to Working towards Intentional Inclusion which requires deliberate action in addressing individual needs so that inclusion is evident in all we do. In April 2022, we launched the Equality, Diversity and Inclusion (EDI) Strategy which was developed in partnership with staff, patients and the community. The strategy includes a robust action plan that places inclusion at the centre of all we do and ensures we are explicit in our actions for improvement and can be viewed at <https://www.porthosp.nhs.uk/about-us/EDI-strategy.htm>.
