B: Searching for Terms	3
C: Searching for Subject Headings	6
D: Combining Search Terms and Subject Headings	7
E: Filtering and Saving Results	9

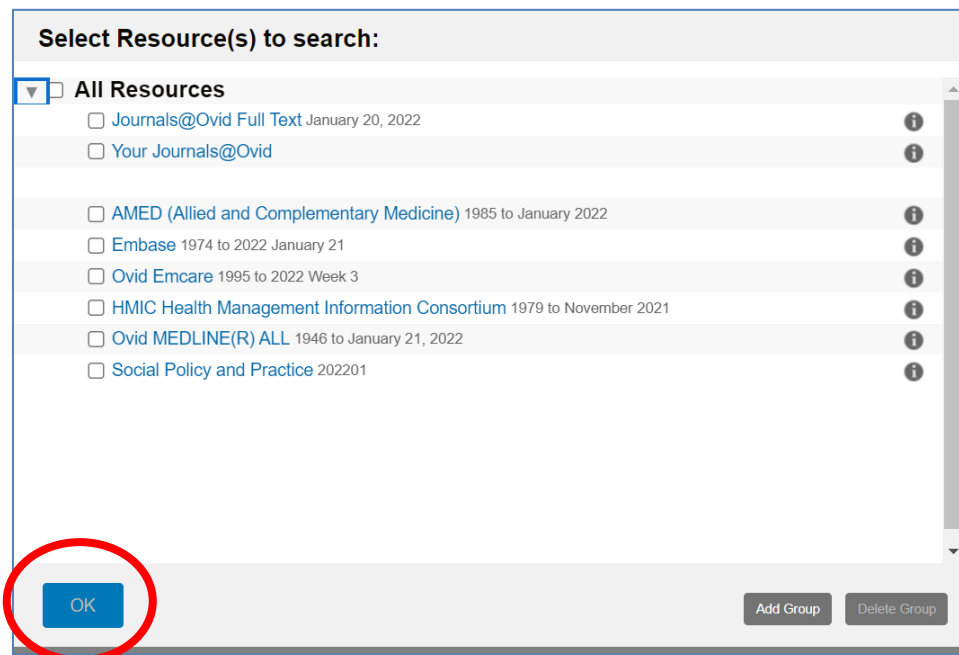

A: Accessing Ovid Databases and Creating a Personal Account

1. Accessing Ovid Databases

- Go to the Library Website:
<https://www.porthosp.nhs.uk/departments/library%20and%20elearning/>
- Select 'e-resources' – Scroll down and select 'OVID Databases'
- You may be prompted to sign in at this stage, or in a few steps' time. **Sign in using your OpenAthens account** (Select "Portsmouth Hospitals University NHS Trust" as your institution if prompted).

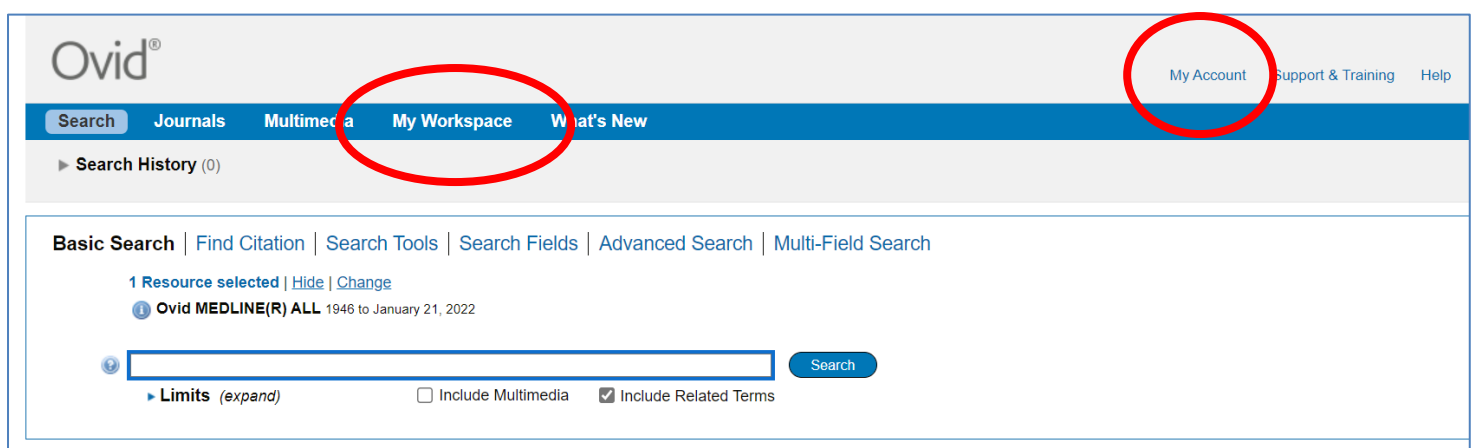

This will take you to the following **Ovid** front page.

2. Select the database you want to search, for instance **Medline**. Then click "OK". *We recommend searching one database at a time:*

3. Once you have selected a database, you can begin searching. However, you will first need to **create a personal/research account to save your searches and results**. If you already have a personal account, login to it now.

Click on **“My Workspace”** or **“My Account”** – they will both take you to the login/registration screen.

4. From here, either **sign into your existing Personal Account**, or select **“Create Account”**:

Personal Account Login

Personal Account Name:

B: Searching for Terms

To get back to the Ovid search page, click on the **“Search”** icon on the top left:

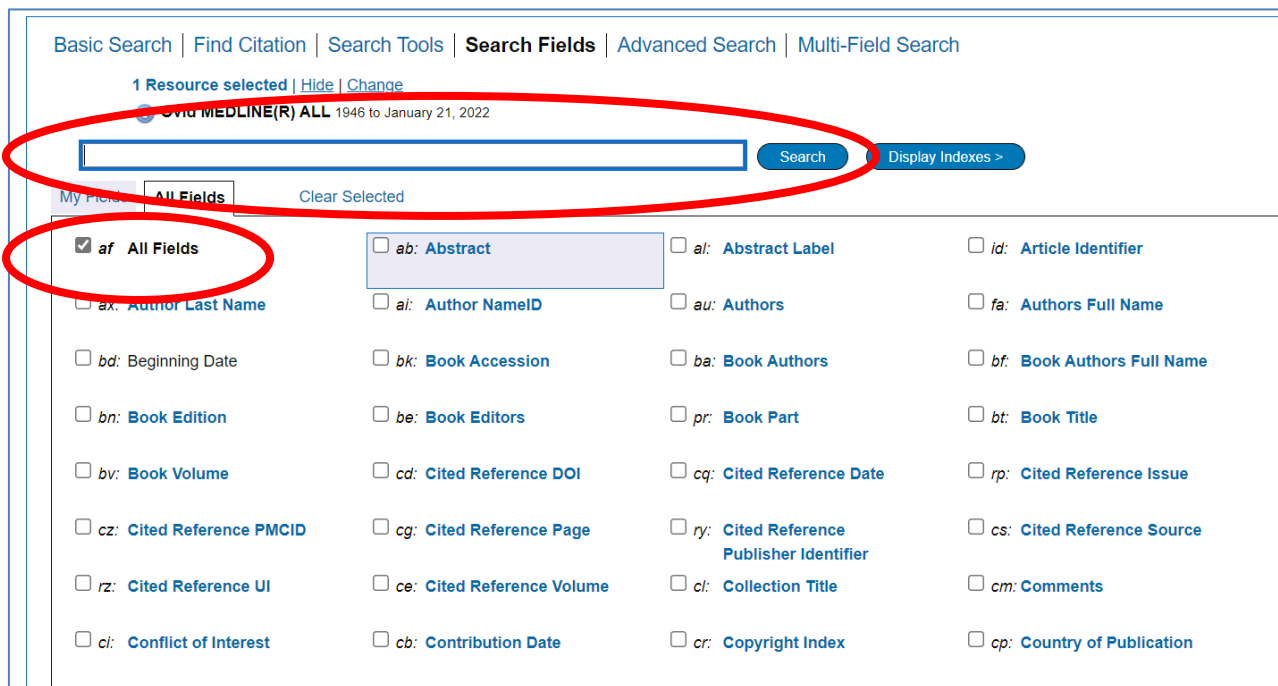

5. To start a search, click on **“Search Fields”**:

6. You can now start entering your search terms in the search box.

“**All fields**” is automatically selected. Alternatively, you can select specific fields to search e.g. **Abstract**, and **Title**.

Once you’ve entered your search term, select “**Search**”:

7. The results appear under the list of fields – you may find it easier to click on either “**Advanced Search**” or “**Multi-field Search**” as this will mean less scrolling down the screen.

8. This will show you your search strategy so far.

Only the 4 most recent search lines are displayed automatically. To see the full search, click “**Expand**” on the right of the screen:

Save Remove Combine with: AND OR

Save All Edit Create RSS Create Auto-Alert View Saved

Enter a search name, Select Type as “Permanent” . If you are updating an existing search, ensure that “Ignore Warning” is ticked.

Save Your Search or Create an Alert

Cancel Save

⚠ There is already a search named smoking cancer
 To overwrite the current saved search, select "Ignore Warning" and press Save Search. Otherwise, you may edit the name and/or search type below, then press Save Search.

Ignore Warning

Search name: smoking cancer

Type: Permanent

Comment: Add a description, you can change it later.

Ovid will automatically time out after about 90 minutes. If you do not save your search regularly, you will lose the most recent work.

10. You can access your saved searches from either the “My Account” or “My Workspace” icons at the top of the screen.

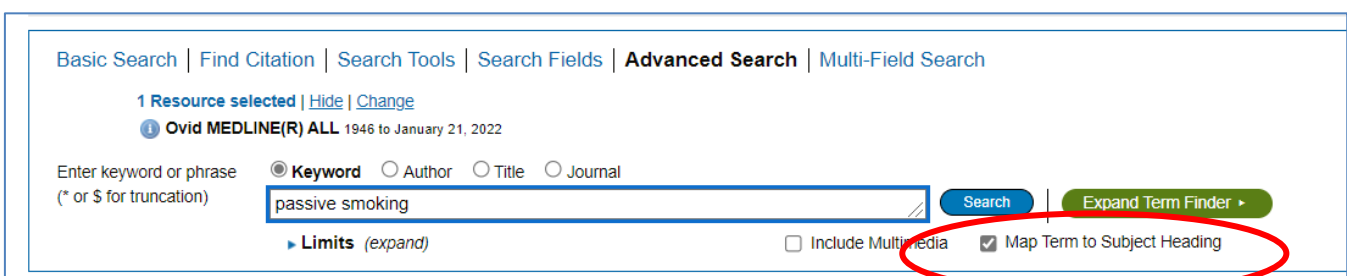

Repeat steps 5-10 for all keywords.

C: Searching for Subject Headings

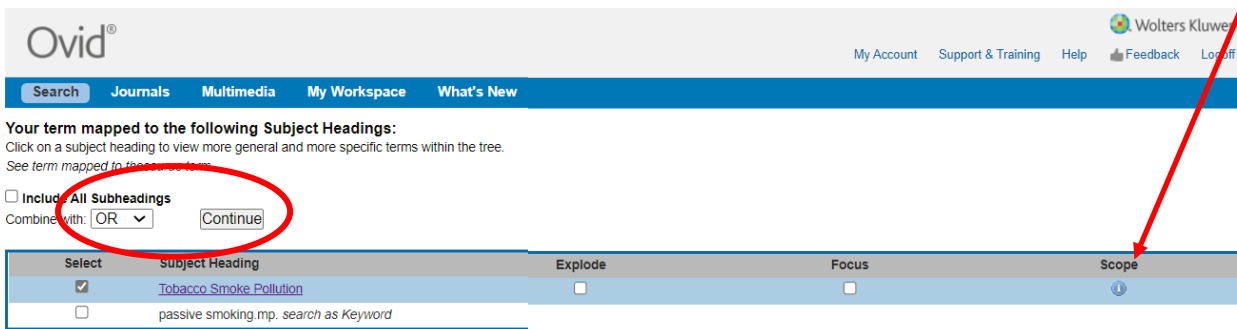

11. To search for Subject Headings, select “Advanced Search” from the menu bar.

12. Type in what subject headings you want to search for. Ensure that “Map to subject heading” is ticked and click “Search”. *Do not use truncation when searching for subject headings.*

13. You can **explode** or **focus** the subject heading to get wider or narrower results. **The scope note shows what is covered by the subject heading you have entered, including the alternative terms.** Searching as a keyword as well as a subject heading will give the widest range of results.

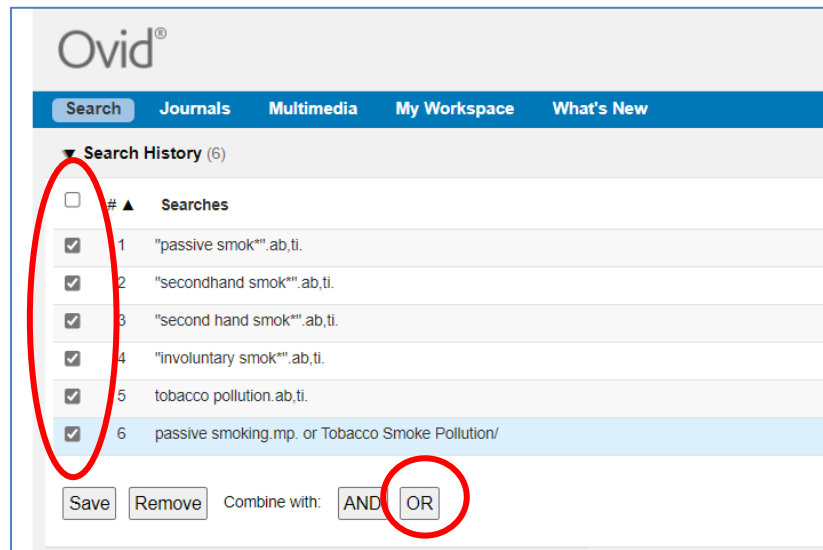

Select to **“Combine with OR”** and click **“Continue”**.

Repeat steps 9-13 for all subject headings.

Head back to your full search (by clicking the expand icon – see Step 8) to combine your search terms.

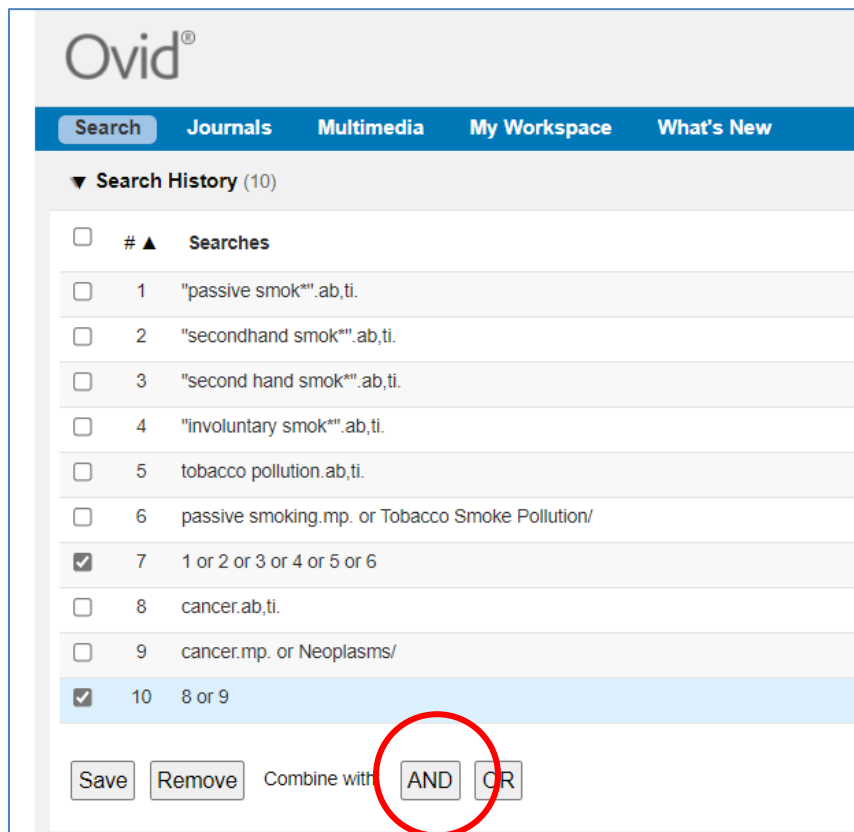

D: Combining Search Terms and Subject Headings

14. Combine your terms and subject headings by selecting the search lines you want to combine.

Repeat steps 5-14 to search for the rest of your concepts.

15. Once you have searched all your concepts, combine them using “AND”. In the example below, line 7 combines the results for one concept (passive smoking) and line 10 for the second concept (cancer):

E: Filtering and Saving Results

16. On the results screen, **you can filter down your results** by publication date, subject, journal, author and publication type (e.g. review) on the left-hand side options bar:

Abstract Cite + My Projects + Annotate

17. You can save individual results by ticking their selection box and clicking the “+ My projects” icon at the top of the page:

Print Email Export **+ My Projects** Keep Selected

18. Within your personal folder, you can create subfolders (projects) for specific searches.

Results can be added to an existing project, or you can create a new one.

19. To export results, select the results you would like to export and click on the “Export icon to see all available formats.

20. You can access your saved searches from either the “My Account” or “My Workspace” icons at the top of the screen.
